

Project Logistics

# Project Logistics

Safety, engineering and expertise in capital projects to reach your ambitious goals for challenges ranging from heavy and oversized cargo to impossible routes.

# Project Logistics

## World of project logistics

Project Logistics is known for complex capital projects, oversized cargo, remote locations, tight delivery schedules and limited budgets. At Kuehne+Nagel, we understand these challenges and provide a wide range of logistics concepts in compliance with the highest Health, Safety and Environment (HSE) standards. If you are in an urgent need to transport heavy and oversized cargo to a remote location safely, our global Project Logistics network supports every stage of your project. To meet deadlines and stay within budget for such

complex projects, we have designed a specialised software One Global System (OGS) to transparently manage the entire supply chain of your project. OGS supports every element of your supply chain, with features to assist you with purchase order processes, vendor management, pick up, packing, consolidation and final delivery. Whatever your project requires, Kuehne+Nagel's dedicated specialists have the knowledge and expertise to give you a competitive edge. Moreover, our engineering expertise, chartering solutions, risk assessment and project management skills ensure safe and smooth operations.

## Reducing CO2 emissions in project logistics

Today, the logistics industry contributes to about 8% of global CO2 emissions. Project logistics often requires a combination of different transport solutions, which can further increase the carbon footprint of a project. With the launch of its zero carbon goals, Kuehne+Nagel has committed to reducing CO2 contribution and offering customised, environmentally friendly and sustainable supply chain solutions to our customers. Leveraging our digital platforms, Kuehne+Nagel can work with you to optimise your choice of transport routes and means, to build sustainable supply chains.

## Industry focus

### Industrial Projects

- Engineering, procurement & construction (EPC)
- Renewable energy
- Power generation
- Yard & conversion
- Mining & metal
- Industrial OEM's
- Infrastructure

### Renewable Energy

- Wind (on-/offshore)
- Solar
- Energy/battery storage
- Hydrogen
- Power-to-X (P2X)
- Hydropower

### Energy Logistics

- Energy producers
- Drilling contractors
- Oilfield service companies
- Subsea companies
- Petrochemical companies

### Marine Logistics

- Ship spares
- Ship owners
- Ship management companies
- Ship yards
- Cruise lines
- Yacht solutions

## Core products

- **Chartering**
- **Engineering**
- **Project execution**
- **HSE Online Tool**  
A web-based tool to report on HSE (Health, Safety and Environment) aspects
- **One Global System**  
An IT-based solution to manage the supply chain

## Health, Safety and Environment policy

At Kuehne+Nagel, we provide the highest standards of Health, Safety and Environment (HSE) management at all times. We minimise accidents or workplace-related illnesses by implementing HSE management and quality assurance at all levels and through mandatory training. This applies not only to our employees, but also to everyone working on our premises, our business partners, customers, and the environments in which we operate. Using our web-based HSE tool enables immediate actions and clear insight into operations from an HSE perspective. Our standards are compliant with the common global certifications: ISO 9001 (Quality), ISO 14001 (Environment) and ISO 45001 (Safety & Health). All our employees and customers have access to our HSE tool and can report incidents, unsafe conditions, as well as positive observations.

## Take advantage of our services:

- Sustainable transport solutions and visibility on CO2 emissions
- Cargo consolidation, handling and warehousing
- Consulting services on equipment design and development
- Project management and in-house representation
- Vessel determination for any assignment
- Last-mile delivery in key locations around the globe
- Customs clearance and consulting
- Risk management and insurance programme
- 24/7 support and live tracking on orders, shipments and services

# Project Logistics

## Your benefits:

- Highest standards in HSE (Health, Safety and Environment)
- Global coverage in strategic core locations
- 24/7 emergency service worldwide
- Full transparency and control over your supply chain via IT software OGS
- Oversized and heavy-lift shipments
- Network of project experts globally
- Cargo damage risk prevention
- Purchase order and vendor management

## Kuehne+Nagel Project Logistics at a glance

### Global Network

60+ countries, connected by our network

### Industry Expertise

Over 950 experts ready to support you

### Technology Leader

Leading technology and customised IT solutions
